Link® DD4000

Casket Transporter

Extending Cargo Van Capacity

The DD4000 Casket Transporter some high roof full-sized cargo vans. The two engineered decks allow four caskets to be transported safely and efficiently by one person.

The powered upper deck tilts up and down in seconds, allowing one person to easily load and transport caskets. Interchangeable and adjustable bier pins allow you to manage different casket sizes on both decks for nearly any job.

Robust features like a powder coated frame, rugged casket bumper arms, and engineered deck frame help create the most reliable and durable deck system in the industry. These key features will not only raise your expectations but improve your professional integrity.

4 CASKETS CAPABILITY

Link's deck system doubles the size of your cargo van by effectively utilizing the full capacity on the space with 4 casket capability.

VALUABLE MANEUVERABILITY

Our deck system requires minimal lifting, adding safety to transporting, and reduce to on-the-job injuries.

RUGGED CASKET BUMPER ARMS

High impact casket bumper arms protect the rear of your vehicle as well as assist in loading and unloading caskets onto casket trucks.

DURABLE GLIDE STRIPS

Makes loading caskets much easier along with protecting the casket and surfaces it comes in contact with.

POWERED UPPER DECK

The upper deck tilts up and down within seconds, allowing one person to easily load and transport caskets.

600 LB. CAPACITY ON THE UPPER DECK

Reinforced frame with simplified lifting geometry creates a durable deck system.
